RISING OF DEMOCRACY

RISING OF DEMOCRACY

Africa is heading to Democracy.

The World Bank conditions project funding with Democratic development

New Horizon Consultants (NHC) was founded under the vision of aiding countries heading towards Democracy by promoting the process, consulting and providing the infrastructure required on the way to Democracy.

NHC offers a broad experience in the processes required to execute the transfer towards Democracy.

The establishment and management of a political party is a complex mission that must be performed in a methodical and well-planned manner from the beginning.

NHC developed a successfully implemented model that consists of 5 main phases:

Phase A - Current Situation Analysis

Phase B - Integration of a work plan

Phase C - Establishment of the administration & organization

Phase D - Establishment of institution & foundation of a constitution

Phase E - Recruitment of members & establishment of branches

The Establishment & Management of a Democratic Elections Campaign must be performed methodically and professionally & accompanied by quality control systems in order to ensure that results will candidly reflect the wishes of the voters.

NHC presents the basic principles underlying the system, as follows:

- Current Situation Analysis
- Foundation of a constitution for elections at a national level
- Choosing the election method
- Establishment of infrastructure & conduct of an election campaign
- Vote counting
- Presenting & advertising the obtained results.

The Process to accomplish Democratic development would face difficulties...
